Summary

🌺 Profile Summary

Passionate and dedicated .NET Core Developer with strong backend expertise and hands-on experience in building scalable, maintainable web applications using ASP.NET 8, Entity Framework, and the Repository Pattern. Recently started an internship at a professional software house, applying real-world problem-solving skills in a collaborative environment.

Also familiar with modern frontend technologies like React.js with Vite and Tailwind CSS, with a strong foundation in UI integration and API consumption. Currently completing the **final semester** of a 3-year **Software Engineering** Diploma (ACCP Prime 2) from Aptech Learning, Shahrah-e-Faisal Campus.
